

QUALITY POLICY

*At the request of the company's Management, the Quality Control Manager has defined and implemented a Quality Control System based on the requirements of the standard UNE-EN-ISO 9001 "Quality Management Systems – Requirements", aimed at the **MANUFACTURING AND MARKETING OF HEATING CARTRIDGES**.*

The purpose of the Quality Control System is to satisfy both the internal and external Customers of RESISTENCIAS MAXIWATT, S.L. by fulfilling the established requirements within the agreed deadlines and prices. To this end, this Quality Control System aims to accomplish the ensuing objectives:

- *Quality Assurance of the products manufactured and the services provided in accordance with the International Standard ISO 9001.*
- *Fulfillment of the conditions offered to our Customers to strengthen their trust in our company, as well as the compliance with the requirements of any parties involved in the manufacturing process -where possible.*
- *Compliance with all legal requirements applicable to RESISTENCIAS MAXIWATT, S.L..*
- *Efficient management and control of the processes involved in the provision of services.*
- *Continuous improvement of processes, procedures and services.*
- *Awareness of RESISTENCIAS MAXIWATT, S.L.'s staff on the importance of the implementation, development and maintenance of an appropriate Quality Control System.*
- *Goal setting and compliance monitoring to ensure the continuous improvement of our company.*

The Quality Control System Manager ensures that every person involved in the Quality Control System is aware of this policy by communicating and delivering these objectives, along with any significant documentation, to all relevant departments in the company.
